

ExaTEL Inc.

GENERAL TARIFF

This Tariff sets out the rates, terms and conditions applicable to the interconnection arrangements provisioned to providers of telecommunications services and facilities.

EXPLANATION OF SYMBOLS

The following symbols are used in this Tariff and have meanings as shown:

A	Increase in rate or charge
C	Change in wording
D	Discontinued rate or regulation
F	Reformatting of existing material with no change to rate or charge
M	Matter moved from its previous location
N	New wording, rate or charge
R	Reduction in rate or charge
S	Reissued matter

Abbreviations of Companies Names

The following companies names are used in this Tariff and have meanings as shown:

Bell	Bell Canada
Bell Aliant	Bell Aliant Regional Communications, Limited Partnership
NorthernTel	NorthernTel, Limited Partnership
TBayTel	TBayTel

PART A Definitions and General Terms

ITEM 100. General

This Tariff sets out the rates, terms and conditions that apply to the provision by ExaTEL Inc. (hereinafter referred to as “ExaTEL”) of services, facilities and interconnection arrangements to providers of telecommunications services and facilities (hereinafter referred to as “Telecommunications Providers”) who are eligible to subscribe pursuant to Telecom Decision CRTC 97-8 and any other applicable CRTC decisions or orders (“Decision 97-8”). Such services, facilities and interconnection arrangements are referred to in this Tariff as “interconnection services”. For greater certainty, this Tariff does not apply to services and facilities provided by Exatel to ExaTEL’s end-customers or to resellers of ExaTEL’s local services.

The provision of interconnection services by ExaTEL to Telecommunications Providers under this Tariff does not constitute a joint undertaking between ExaTEL and any Telecommunications Provider subscribing for such services.

Unless otherwise specified in the Tariff, where rates are listed by ILEC operating territory, ExaTEL shall apply the rate listed for the location where interconnection takes place with a Telecommunications Provider.

PART A Definitions and General Terms**ITEM 101. Definitions**

In this Tariff:

“**Act**” is the Telecommunications Act (S.C. 1993, c.38 as amended).

“**affiliate**” means any person that controls or is controlled by ExaTEL or that is controlled by the same person that controls ExaTEL and includes a related person. A person is “related” to another if (i) it either holds, either directly or indirectly, at least a 20% interest in, or any options to acquire at least a 20% interest in, any of the capital, assets, property, profits, earnings, revenues or royalties of the other, or (ii) any third party holds, directly or indirectly, at least a 20% interest in, or any options to acquire at least a 20% interest in, any of the capital, assets, property, profits, earnings, revenues or royalties of each of the persons.

“**ANI**” means automatic number identification.

“**bill and keep trunks**” are facilities connecting the networks of two LECs within the same exchange, the costs of which are shared in accordance with Decision 97-8.

“**channel**” means a path provided over a transmission facility for the transmission of telecommunications.

“**circuit**” means an analogue voice-grade or digital 64 Kbps (DS-0) channel.

“**circuit group**” means a group of equivalent circuits.

“**CLEC-IXC Agreement**” means the form of agreement approved by the CRTC governing interconnection between a CLEC and an IXC entitled “Master Agreement for CLEC-IXC Interconnection”.

“**Commission or CRTC**” is the Canadian Radio-television and Telecommunications Commission.

“**Common Channel Signalling System 7 or CCS7 signalling**” is the out-of-band signalling system used by telecommunications carriers to support telecommunications services.

“**Competitive Local Exchange Carrier or CLEC**” is a Canadian carrier, as defined in section 2 of the Act, recognized as a CLEC by the CRTC pursuant to Decision 97-8.

“**competitive pay telephone service provider**” means a person that provides competitive pay telephone service for use by the general public.

“**control**” includes control in fact, whether through one or more persons.

“**customer**” means a person or legal entity, including an end-customer, a reseller or a sharing group, that purchases telecommunications services from a Telecommunications Provider and is liable to the Telecommunications Provider for those services.

PART A Definitions and General Terms**ITEM 101. Definitions - continued**

“**data service**” means a telecommunications service other than a voice service.

“**dedicated service**” means a telecommunications service that is dedicated to the private communications needs of an end-customer, where one end of the facility used to provide the service is terminated at equipment dedicated to that end-customer.

“**digital transmission**” is a telecommunications transmission that uses non-continuous signals to transmit information.

“**direct access line or DAL**” means a network arrangement used to transmit traffic over a dedicated facility between an IXSP’s interexchange network and an end-customer’s premises.

“**DS-0**” is a channel capable of digital transmission at 64Kbps.

“**DS-1**” is a channel capable of digital transmission at 1.544 Mbps.

“**EAS transport**” means the delivery by a LEC of traffic originating in one exchange and terminating in another exchange with which the first exchange has EAS or a similar arrangement pursuant to ILEC tariffs.

“**end-customer**” is the ultimate purchaser of telecommunications services provided on a retail basis by a Telecommunications Provider.

“**exchange**” refers to the incumbent LEC’s basic unit for the administration and provision of its telecommunications service, which normally encompasses a city, town, village or portions thereof and adjacent areas.

“**extended area service or EAS**” means a service offered by ILECs enabling a customer within an exchange to make calls to another exchange without the application of long distance charges.

“**facility**” means a telecommunications facility, as defined in section 2 of the Act, and includes equipment.

“**ILEC operating territory**” means the geographic area within which a Telecommunications Provider provides service as an ILEC.

“**in-band signalling**” means signalling which is carried along the same channel that is carrying the information content of the transmission.

“**incumbent LEC or ILEC**” means a LEC that provided local exchange service on a monopoly basis prior to May 1, 1997.

“**interconnecting circuit**” means a circuit or path that connects a Telecommunications Provider’s facility to ExaTEL’s facilities to provide access to ExaTEL’s local switched telephone network.

“**interexchange carrier or IXC**” is a Canadian carrier, as defined in section 2 of the Act, that provides interexchange service.

PART A Definitions and General Terms**ITEM 101. Definitions - continued**

“**interexchange reseller or IX reseller**” is a reseller that provides interexchange service.

“**interexchange service or IX service**” means a service or facility configured to operate between any two exchanges for which ILECs would apply long distance charges, including an international service or facility.

“**IX service provider or IXSP**” is an IXC or IX reseller.

“**joint-use basis**” means on a basis where a circuit is not dedicated to the use of a single end-customer.

“**LEC**” is a local exchange carrier.

“**local calling area**” means an area defined by a LEC wherein calls can be made by the LEC’s end-customers without the application of long distance charges.

“**local interconnection region or LIR**” is a geographic area specified by an ILEC within which traffic is exchanged with CLECs on a Bill and Keep basis as specified in Telecom Decision CRTC 2004-46.

“**local number portability or LNP**” enables an end-customer to retain the same telephone number when changing from one LEC to another LEC as service provider within the same exchange.

“**local routing number or LRN**” is a ten-digit routing number which identifies the terminating switch for a ported number.

“**MALI**” means the form of agreement approved by the CRTC governing interconnection between two LECs entitled “Master Agreement for Interconnection Between Local Exchange Carriers (LECs)”.

“**multi-frequency signalling or MF signalling**” is an in-band signalling system used by telecommunications carriers to route telecommunications traffic.

“**NXX**” is the second set of three digits of a ten-digit telephone number (i.e., NPA-NXX-XXXX) which identifies a specific exchange within a numbering plan area (NPA).

“**out-of-band signalling**” means signalling that is separated from the channel carrying the information content.

“**person**” includes any individual, partnership, body corporate, unincorporated organization, government, government agency, trustee, executor, administrator or other legal representative.

“**point of interconnection or POI**” is a switch or other point of interconnection designated by ExaTEL as its gateway for purposes of interconnecting to Telecommunications Providers in an exchange.

PART A Definitions and General Terms**ITEM 101. Definitions - continued**

“**ported numbers**” are those telephone numbers formerly associated with a particular LEC and now associated with a different LEC.

“**premises**” is the continuous property and the building or buildings located thereon, or the part or parts of a building, occupied at the same time by an end-customer or Telecommunications Provider.

“**PSTN**” means the public switched telephone network.

“**resale**” means the subsequent sale or lease on a commercial basis, with or without adding value, of a telecommunications service purchased from **ExaTEL** or a Telecommunications Provider.

“**reseller**” means a person engaged in resale of local exchange service (“local reseller”) or interexchange service (“interexchange reseller”).

“**sharing**” means the use by two or more persons, in an arrangement not involving resale, of a telecommunications service provided by a Telecommunications Provider.

“**sharing group**” means a group of persons engaged in sharing.

“**signalling transfer point or STP**” means a packet switching point in the CCS7 network which routes CCS7 signalling messages to the intended network element.

“**Telecommunications Provider**” means a provider of telecommunications services that is eligible in accordance with Decision 97-8 to subscribe to interconnection services offered by ExaTEL and includes a LEC, an IXSP and a WSP operating in the same exchange as ExaTEL.

“**transiting**” occurs when a LEC receives traffic from one Telecommunications Provider and switches it to another.

“**trunk**” is a DS-0 time slot or channel within which a digital connection is made between the trunk-side of ExaTEL’s local switch and another switch.

“**wireless service provider or WSP**” means a provider of public switched mobile voice services where such provider is not a CLEC.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations**

This Item sets out the basic rights and obligations (hereinafter referred to as the “Terms”) of both ExaTEL and Telecommunications Providers in connection with the interconnection services provided under this Tariff.

1. General

1. The offer of interconnection services by ExaTEL to Telecommunications Providers under this Tariff is subject to the following:
 1. the general rights and obligations contained in these Terms;
 2. the rates, terms and conditions contained elsewhere in this Tariff, to the extent that they are not inconsistent with these Terms, unless any such rates, terms or conditions expressly override these Terms and have been approved by the CRTC;
 3. the rights, obligations, rates, terms and conditions contained in written agreements for the provision of interconnection services under this tariff, to the extent that they are not inconsistent with these Terms or this Tariff, unless any such rights, obligations, rates, terms or conditions expressly override these Terms or this Tariff and have been approved by the CRTC.

All of the above bind ExaTEL and Telecommunications Providers.

2. Effective Date of Changes

1. Subject to Item 102.2.2, changes to these Terms or this Tariff, as approved by the CRTC, take effect on their effective date even though Telecommunications Providers have not been notified of them or have paid or been billed at the previously-approved rate.
2. Where interconnection services that were to be provided by a certain agreed-upon date were not provided, through no fault of the Telecommunications Provider and, in the meantime, a rate increase has gone into effect, the previously-approved non-recurring charges shall apply.

3. Obligation to Provide Service

1. Except as otherwise expressly specified elsewhere in this Tariff, and subject to Item 102.3.2 to 102.3.4 below, all of the interconnection services available to Telecommunications Providers under this Tariff are provided by ExaTEL pursuant to an obligation to serve.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations – continued****3. Obligation to Provide Service – continued**

2. Notwithstanding ExaTEL's obligation to offer the services under this Tariff, ExaTEL is not required to provide interconnection service to a Telecommunications Provider where:
 1. the Telecommunications Provider owes amounts to ExaTEL that are past due, other than as a guarantor;
 2. the Telecommunications Provider does not provide to ExaTEL a reasonable deposit or alternative required pursuant to these Terms; or
 3. the Telecommunications Provider refuses to pay the additional charge referred to in Item 102.3.3.
3. Where it is necessary for ExaTEL to install special equipment or to incur unusual expense in order to meet a Telecommunications Provider's requirements, an additional charge may be assessed based upon the equipment to be installed or the expense to be incurred.
4. Where ExaTEL does not provide service on an application by a Telecommunications Provider, it must provide written explanation upon request.

4. ExaTEL's Facilities

1. Upon termination of service, the Telecommunications Provider must return any equipment provided by ExaTEL.
2. ExaTEL must bear the expense of maintenance and repairs required due to normal wear and tear to its facilities, except that ExaTEL may charge for the additional expense incurred when the Telecommunications Provider requires maintenance and repair work to be performed outside of regular working hours. This does not apply where otherwise stipulated in these Terms, the Tariffs, or by special agreement.
3. A Telecommunications Provider which has deliberately, or by virtue of a lack of reasonable care, caused loss or damage to ExaTEL's facilities, may be charged the cost of restoration or replacement. In all cases, Telecommunications Providers are liable for damage caused to ExaTEL's facilities by any facilities provided by the Telecommunications Provider or its customer.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****4. ExaTEL's Facilities - continued**

4. Where the Telecommunications Provider reports trouble in relation to the interconnection services to ExaTEL, ExaTEL must initiate trouble repair procedures at such time.

5. ExaTEL's Right to Enter Premises

Unless otherwise expressly permitted in this Tariff, a written agreement, or under any guidelines applicable to ExaTEL and the Telecommunications Provider and approved by the CRTC, ExaTEL, its employees or agent, shall have no right to enter the premises of the Telecommunications Provider, including any premises on which service is currently or is to be provided to the Telecommunications Provider, unless ExaTEL has first obtained express permission to do so from the Telecommunications Provider. Prior express permission shall not be required in cases of emergency or where entry is pursuant to a court order. In every case, valid ExaTEL identification must be shown to the Telecommunications Provider, at the Telecommunications Provider's request, prior to entering the premises.

6. Deposits and Alternatives

1. ExaTEL may require deposits from a Telecommunications Provider:
 1. which has no credit history with ExaTEL and will not provide satisfactory credit information;
 2. which has an unsatisfactory credit rating with ExaTEL due to previous payment practices with ExaTEL; or
 3. where the provision of the interconnection services to the Telecommunications Provider clearly presents an abnormal risk of loss.
2. ExaTEL must inform the Telecommunications Provider of the specific reason for requiring a deposit, and of the possibility of providing an alternative to a deposit, such as arranging for third party payment, a bank letter of credit or a written guarantee from a third person whose credit is established to the satisfaction of ExaTEL.
3. A Telecommunications Provider may provide an alternative to a deposit, provided it is reasonable in the circumstances.
4. Deposits earn interest at the savings account rate of the Royal Bank of Canada calculated on the balance of the deposit plus interest accrued prior to the current billing period. The interest will be credited to the account annually or upon

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****6. Deposits and Alternatives - continued**

refund of the deposit, and will be reflected on ExaTEL's next billing statement.

5. ExaTEL will show the total principal amount of deposits held on each Telecommunications Provider's billing statement.
6. ExaTEL must review the continued appropriateness of deposits and alternative arrangements at 6-month intervals. When service is terminated or the conditions which originally justified such arrangements are no longer present, ExaTEL must promptly refund or credit the deposit, with interest, or return the guarantee or other written undertaking, retaining only any amount then owed to it by the Telecommunications Provider.
7. At no time may the amount of all deposits and alternatives provided exceed 3 months of charges for all interconnection services provided by ExaTEL to the Telecommunications Provider under this Tariff.

7. Restrictions on Use of Services

1. A Telecommunications Provider may not use the interconnection services provided by ExaTEL or allow the interconnection services to be used for a purpose or in a manner contrary to any applicable law or regulation.
2. Neither ExaTEL nor the Telecommunications Provider may re-arrange, disconnect, repair, remove or otherwise interfere with the facilities of the other party, except in the following three circumstances:
 1. cases of emergency;
 2. where otherwise expressly permitted in ExaTEL's Tariffs;or
 3. where otherwise expressly permitted by the provisions of an applicable interconnection agreement.

In all cases ExaTEL or the Telecommunications Provider, as the case may be, must then be notified of the changes as soon as possible.

3. No payment may be exacted directly or indirectly from a Telecommunications Provider by any party other than ExaTEL for use of any of ExaTEL's interconnection services except where otherwise stipulated in ExaTEL's Tariffs, or by the provisions of an applicable interconnection agreement.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****8. Non-Disclosure of Confidential Information**

As a condition of ExaTEL providing interconnection services to the Telecommunications Provider pursuant to this Tariff, the Telecommunications Provider agrees to protect ExaTEL's confidential information as if it were a party to Schedule A of the MALI. ExaTEL shall provide to the Telecommunications Provider a copy of Schedule A. For its part, ExaTEL shall protect the Telecommunications Provider's confidential information to the same standard.

9. Refunds in Cases of Service Problems

Where there are omissions, interruptions, delays, errors or defects in transmission, or failures or defects in ExaTEL's facilities, ExaTEL's liability is limited to a refund of charges, on request, proportionate to the length of time that the problem existed. No request is necessary where a problem in service lasts 24 hours or more from the time ExaTEL is advised of the problem. However, where the problem is occasioned by ExaTEL's negligence, ExaTEL is also liable for the amount calculated in accordance with Item 102.10.2.

10. Limitation of ExaTEL's Liability

1. These Terms do not limit ExaTEL's liability in cases of deliberate fault, gross negligence, anti-competitive conduct, breach of contract where the breach results from the gross negligence of ExaTEL, or disclosure of confidential information contrary to Item 102.8.
2. Except with regard to physical injuries, death, or damage to a Telecommunications Provider's premises or other property, occasioned by its negligence, ExaTEL's liability for negligence, and for breach of contract where the breach results from the negligence of ExaTEL, is limited to three times the amounts refunded or cancelled in accordance with Item 102.9, as applicable.
3. ExaTEL is not responsible for:
 1. libel, slander, defamation or the infringement of copyright or other unlawful activity arising from material or messages transmitted over ExaTEL's facilities;
 2. the infringement of patents arising from the combining or using of the Telecommunications Provider's facilities with ExaTEL's facilities; or

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****10. Limitation of ExaTEL's Liability - continued**

3. damages arising out of the act, default, neglect or omission of the Telecommunications Provider in the use or operation of facilities provided by ExaTEL.
4. When facilities of third parties are used in establishing connections to or from facilities under the control of a Telecommunications Provider, ExaTEL is not liable for any act, omission or negligence of the third party.
5. In the provision of interconnection services, ExaTEL is not responsible to the Telecommunications Provider's customer for end-to-end service.

11. Payment

1. Subject to Items 102.11.2 and 102.11.3, charges cannot be considered past due until the next billing statement has been generated or the time period for payment indicated on the previous billing statement has passed.
2. In exceptional circumstances, prior to the normal billing date, ExaTEL may request payment from a Telecommunications Provider, on an interim basis, for non-recurring charges that have accrued, by providing notice to the Telecommunications Provider with details regarding the services and charges in question. In such cases, subject to Item 102.11.3, the charges can be considered past due 3 days after they are incurred, or 3 days after ExaTEL demands payment, whichever comes later.
3. No charge disputed by a Telecommunications Provider can be considered past due unless ExaTEL has reasonable grounds for believing that the purpose of the dispute is to evade or delay payment. The dispute procedure set out in Schedule E of the MALI shall be followed and the Telecommunications Provider must pay the undisputed portion of the billing statement. ExaTEL shall provide to the Telecommunications Provider a copy of Schedule E.
4. ExaTEL may request immediate payment in extreme situations, provided that a notice has been issued pursuant to Item 102.11.2, and the abnormal risk of loss has substantially increased since that notice was given, or ExaTEL has reasonable grounds for believing that the Telecommunications Provider intends to defraud ExaTEL.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****12. Liability for Unbilled and Underbilled Charges**

1. Telecommunications Providers are not responsible for paying a previously unbilled or underbilled charge for interconnection services provided under this Tariff except where:
 1. in the case of a recurring charge, it is correctly billed by ExaTEL within a period of one year from the date it was incurred; or
 2. in the case of a non-recurring charge, it is correctly billed by ExaTEL within a period of 150 days from the date it was incurred.
2. In the circumstances described in Item 102.12.1, ExaTEL cannot charge a Telecommunications Provider interest on the amount of the correction. If the Telecommunications Provider is unable to promptly pay the full amount owing, ExaTEL must attempt to negotiate a reasonable deferred payment agreement.
3. Items 102.12.1 and 102.12.2 above shall not apply in circumstances where there has been deception by the Telecommunications Provider with regard to a charge for interconnection services.

13. Liability for Charges that Should Not Have Been Billed and Those That Were Overbilled

1. In the case of a recurring charge that should not have been billed or that was overbilled, a Telecommunications Provider must be credited with the excess back to the date of the error, subject to applicable limitation periods provided by law. However, a Telecommunications Provider that does not dispute the charge within one year of the date of an itemized billing statement which shows that charge correctly, loses the right to have the excess credited for the period prior to that statement.
2. Non-recurring charges that should not have been billed or that were overbilled must be credited, provided that the Telecommunications Provider disputes them within 150 days of the date of the billing statement.
3. A Telecommunications Provider that is credited with any amount that should not have been billed or that was overbilled must also be credited with interest on that amount at the rate payable for interest on deposits that applied during the period in question.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****14. Minimum Contract Period**

The minimum contract period for ExaTEL's interconnection services is one month commencing from the date the interconnection services are provided, except where a longer minimum contract period is stipulated in either ExaTEL's Tariffs or an agreement between ExaTEL and the Telecommunications Provider.

15. Telecommunications Provider - Initiated Cancellation or Termination of Service

1. A Telecommunications Provider which cancels or delays a request for service before installation work has started cannot be charged by ExaTEL. Installation work is considered to have started when the Telecommunications Provider has advised ExaTEL to proceed, and ExaTEL has incurred any related expense. A Telecommunications Provider which cancels or delays a request for service after installation work has started, but before service has started, will be charged the lesser of the full charge for the entire minimum contract period plus the installation charge or the estimated costs incurred in installation less estimated net salvage (referred to hereinafter as "cancellation charges"). The estimated installation costs include the cost of non-recoverable equipment and materials specifically provided or used plus the cost of installing, including engineering, supply expense, labour and supervision, and any other disbursements resulting from the installation and removal work.
2. A Telecommunications Provider which gives ExaTEL reasonable advance notice may terminate service after expiration of the minimum contract period, in which case it must pay charges due for interconnection services which have been furnished.
3. Notwithstanding Item 102.15.1, ExaTEL may waive its rights, in their entirety or in part, to claim cancellation charges in the case where the Telecommunications Provider wishes to replace the interconnection services by one or more of ExaTEL's interconnection services of equal or greater value to the cancelled interconnection service.

16. ExaTEL -Initiated Suspension or Termination of Service

1. For greater certainty, the phrase "reasonable advance notice" as used in this Item 102.16 will generally be at least 30 days.
2. ExaTEL may suspend or terminate a Telecommunications Provider's service only where the Telecommunications Provider:

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****16. ExaTEL -Initiated Suspension or Termination of Service - continued**

1. fails to pay an amount owing by the Telecommunications Provider that is past due, provided that ExaTEL has provided reasonable advance notice;
 2. fails to provide or maintain a reasonable deposit or alternative when required to do so pursuant to these Terms;
 3. fails to comply with the provisions of a deferred payment agreement;
 4. repeatedly fails to provide ExaTEL with reasonable entry and access in conformity with Item 102.5.1;
 5. uses or permits others to use any of ExaTEL's interconnection services so as to prevent fair and proportionate use by others;
 6. contravenes Item 102.7; or
 7. fails to provide payment when requested by ExaTEL pursuant to Item 102.11.4.
3. ExaTEL may not suspend or terminate service in the following circumstances:
1. where the Telecommunications Provider is prepared to enter into and honour a reasonable deferred payment agreement; or
 2. where there is a dispute regarding the basis of the proposed suspension or termination, provided payment is being made for undisputed outstanding amounts and ExaTEL does not have reasonable grounds for believing that the purpose of that dispute is to evade or delay payment.
4. Prior to suspension or termination, ExaTEL must provide the Telecommunications Provider with reasonable advance notice, stating:
1. the reason for the proposed suspension or termination and the amount owing, if any;
 2. the scheduled suspension or termination date; and
 3. subject to contrary provisions of this Tariff or as approved by the CRTC, that a reasonable deferred payment agreement can be entered into (where the reason for suspension or termination is failure to pay).
5. Where repeated efforts to contact the Telecommunications Provider have failed, ExaTEL must, at a minimum, deliver the notice referred to in Item 102.16.4 to the billing address prior to delivering the notice referred to in Item 102.16.6.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****16. ExaTEL -Initiated Suspension or Termination of Service - continued**

6. In addition to the notice required by Item 102.16.4, ExaTEL must, at least 24 hours prior to suspension or termination, advise the Telecommunications Provider or another responsible person that suspension or termination is imminent, except where:
 1. repeated efforts to so advise have failed;
 2. immediate action must be taken to protect ExaTEL from network harm resulting from facilities controlled or provided by the Telecommunications Provider; or
 3. the suspension or termination occurs by virtue of a failure to provide payment when requested by ExaTEL pursuant to Item 102.11.4.
7. Except with the Telecommunications Provider's consent or in exceptional circumstances, suspension or termination may occur only on business days between 8 a.m. and 5 p.m., local time, unless the business day precedes a non-business day, in which case disconnection may not occur after 12 noon local time.
8. Suspension or termination does not affect the Telecommunications Provider's obligation to pay any amount owed to ExaTEL.
9. In the case of interconnection services that have been suspended, unless suspension occurs during the minimum contract period, ExaTEL must make a daily pro rata allowance based on the monthly charge for such interconnection services.
10. ExaTEL must restore service, without undue delay, where the grounds for suspension or termination no longer exist, or a payment or deferred payment agreement has been negotiated. Service charges may apply.
11. Where it becomes apparent that suspension or termination occurred in error or was otherwise improper, ExaTEL must restore service the next day, at the latest, unless exceptional circumstances do not permit this, and no reconnection charges shall be levied.

17. Assignment

The Telecommunications Provider cannot assign its rights or obligations pursuant to this Tariff without having obtained the prior written consent of ExaTEL, which consent shall not unreasonably be withheld.

PART A Definitions and General Terms**ITEM 102. General Rights and Obligations - continued****18. Right of Access**

When a Telecommunications Provider offers services to tenants within a multi-tenant building, it must provide ExaTEL with direct access, under reasonable terms and conditions, to tenants who choose to receive services to which a right of direct access has been mandated by the CRTC from ExaTEL rather than, or in addition to, services from the Telecommunications Provider.

PART A Definitions and General Terms**ITEM 103. Payment of Charges**

1. The customer is responsible for payment to ExaTEL of charges for all service and equipment furnished. Fixed charges are billed and payable monthly in advance and other charges are payable when billed except as otherwise stated in Item 102.11.2.
2. Notwithstanding any other provisions in this General Tariff, ExaTEL may assess a late-payment charge, which provides for administration and carrying charges related to accounts that are owed to ExaTEL and are in arrears. The late-payment charge applies when ExaTEL has not received payment within 30 days of the billing date.
3. Late payment charges are forborne from regulation pursuant to Section III of Telecom Regulatory Policy CRTC 2009-424. Late payment charges will be calculated as set out on the customer invoice, or at **www.vianet.ca**.

PART B Interconnection with Local Exchange Carriers (LECs)**ITEM 200. General**

This Part governs the provision of interconnection services associated with facilities and services of ExaTEL and those of Telecommunications Providers that are LECs. A LEC that wishes to interconnect with ExaTEL must also enter into an interconnection agreement with ExaTEL in the form of the MALI.

Interconnection between **ExaTEL Inc.** and a LEC will be made on a per LIR basis. The only exception will be for LECs that are interconnected with **ExaTEL Inc.** on a per-exchange basis as of 29 May 2006, in which case moves, additions and changes will be permitted within these exchanges to the extent permitted by the MALI between **ExaTEL Inc.** and the LEC.

When a LEC is planning to migrate from the exchange-based interconnection regime to the LIR-based interconnection regime, it must respect the terms and conditions and the modification process set out in its existing interconnection agreement with **ExaTEL Inc.**

PART B Interconnection with Local Exchange Carriers (LECs)**ITEM 201. Compensation for Traffic Termination****1. Termination of Intra-Exchange or Intra LIR Traffic**

1. Traffic imbalance may occur for traffic that is interchanged between ExaTEL Inc. and a LEC over designated Bill and Keep trunks. Subject to Item 201.1.2 below that applies to existing exchange based interconnection, where a traffic imbalance exists, the party which originates less traffic than it terminates is entitled to compensation. It is the responsibility of the party entitled to compensation (i.e., in whose favour the imbalance exists) to detect and apply charges for the imbalance.
2. For existing exchange-based interconnection, ExaTEL Inc. will notify the LEC of any imbalance in ExaTEL Inc.'s favour that is detected for 3 consecutive months on specific trunk groups (the "initial imbalance").
3. If ExaTEL Inc. detects a traffic imbalance in its favour, subsequent to the initial imbalance that applies for existing exchange-based interconnection, it shall notify the LEC as soon as possible. For both the exchange-based and the LIR-based interconnection regimes, the non-recurring monthly rates specified below will be applied on the basis of actual traffic imbalances from the date of notification.
4. The charge for any month is calculated for each trunk required at the busiest period of that month on the basis of actual traffic imbalance in the month. The non-recurring monthly rates specified below apply for as long as the imbalance exists. When an imbalance recurs in a month subsequent to its declining to zero, ExaTEL Inc. shall notify the LEC of the recurrence of the imbalance. ExaTEL Inc. will then issue an invoice for the imbalance consistent with the manner in which ongoing imbalance situations are billed.
5. Where a traffic imbalance favourable to ExaTEL Inc. exists for a partial month after the activation of bill-and-keep trunks in a new LIR, ExaTEL Inc. may waive charges for that partial month. If ExaTEL Inc. chooses to do so, billing will resume as normal in the first complete month.

3. Rates applicable in the operating territories of Bell Aliant and Bell Canada operating as the ILECs.

PART B Interconnection with Local Exchange Carriers (LECs)**ITEM 201. Compensation for Traffic Termination – continued****Percentage of the compensation payments¹**

The table below indicates the percentages of the monthly compensation payments to a LEC when the total volume of traffic exchanged between **ExaTEL Inc.** and a LEC over all local shared-cost trunks is at least 10 million minutes per month and the volume of traffic in the direction of that LEC network is more than 80 percent of the total traffic exchanged between **ExaTEL Inc.** and that LEC (the Traffic Threshold) for three months or more. The percentages set out in the table below will continue to apply for each month until the traffic falls to, or below, the Traffic Threshold.

Following the initial application of the percentages in the table below, the percentages will apply in any subsequent month when the total volume of traffic exchanged between ExaTEL Inc. and that LEC over all their local shared-cost trunks is at least 10 million minutes per month, and the volume of traffic in the direction of that LEC network is more than the Traffic Threshold.

The compensation payments are calculated by applying the percentages to the amounts payable using the rates identified in the tables above.

¹ Applicable in the operating territories of Bell Aliant and Bell Canada operating as an ILEC

PART B Interconnection with Local Exchange Carriers (LECs)**ITEM 201. Compensation for Traffic Termination – continued****2. Termination of Traffic from Exchanges within ILEC Local Calling Area**

1. For existing exchange-based interconnection, LEC traffic originated in an exchange may be delivered to ExaTEL Inc. for termination to end-customers in another exchange that has EAS with the originating exchange (i.e., traffic from exchanges within an ILEC's local calling area). For LIR-based interconnection, LEC traffic originated at an exchange external to an LIR having EAS with an exchange or exchanges within that LIR may be delivered to **ExaTEL Inc.** for termination to end-customers that are located within the EAS area that is inside of the LIR.
2. Unless otherwise mutually agreed, such traffic shall be delivered to **ExaTEL Inc.** over one-way trunks interconnected at **ExaTEL Inc.'s** POI in the terminating exchange (for existing-exchange based interconnection) or at **ExaTEL Inc.'s** POI in the LIR that includes the terminating exchange (for LIR-based interconnection). For LIR-based interconnection, the LEC can deliver terminating toll traffic to **ExaTEL Inc.** on the trunks that deliver EAS traffic.
3. The monthly rates and service charges specified below apply where such traffic is delivered to **ExaTEL Inc.** POI on one-way terminating trunks. In addition, the LEC is responsible for all costs associated with transporting the traffic to the terminating exchange (for existing exchange based interconnection) or to the POI of the terminating LIR (for LIR based interconnection) including the provisioning of trunks between the LEC and **ExaTEL Inc.'s** POI in the terminating exchange or LIR.
4. As an alternative, **ExaTEL Inc.** and the LEC may agree to deliver such traffic over bill and keep trunks in the terminating exchange (for existing exchange based interconnection) or in the terminating LIR (for LIR based interconnection). Where such traffic is delivered to **ExaTEL Inc.** on bill and keep trunks, the rates specified in Item 201.1 apply to any resulting traffic imbalance.

Compensation for Traffic Termination							
Territory	Recurring Charge (each Trunk)					Service Charge

PART B Interconnection with Local Exchange Carriers (LECs)**ITEM 202. Basic Listing Interchange File**

1. Basic Listing Interchange File (“BLIF”) service is offered by ExaTEL to LECs operating in Canada. BLIF service is also available to independent directory publishers for the sole purpose of providing directories and to alternate operator service providers for the sole purpose of providing directory assistance. BLIF service provides for a machine-readable file containing non-confidential subscriber listing information (“listings”) for ExaTEL’s end-customers, listed and intended to be listed in the LEC’s directories and directory assistance databases. ExaTEL provides a complete set of end-customer listings, as specified in the BLIF Service Description and Ordering Guidelines document (the “BLIF Document”), for the purpose of providing telephone directories and/or directory assistance information
2. BLIF service is provided by ExaTEL in accordance with the terms and conditions contained in the BLIF Agreement, including the limitation of ExaTEL’s liability. A LEC, an independent directory publisher or an alternate operator service provider who obtains ExaTEL’s end-customer listings under this tariff will herein be referred to as the licensee. The licensee accepts all the obligations of the licensee pursuant to the BLIF Agreement and must enter into the BLIF Agreement for 5 years. The BLIF Agreement is renewable automatically for subsequent 5-year periods
3. Listings are provided in a format conforming to the specifications set out in the BLIF Document.
4. The BLIF includes all of the required information as specified in the BLIF Document.
5. The licensee may purchase residential listings, business/government listings, or both.
6. The BLIF for ExaTEL’s serving area is available on an exchange basis. A listing of the exchanges served by ExaTEL is available on request.

PART B Interconnection with Local Exchange Carriers (LECs)**ITEM 202. Basic Listing Interchange File - continued**

7. The following is a non-exhaustive list of types of listing information not provided in the BLIF:
 - Non-Published Telephone Numbers;
 - “Out of Book” Listings;
 - 800, 877, 888 and 900 listings;
 - Reference Listings;
 - 9-1-1, 711, 611, 411, 0, 1;
 - Listings for WSP end-customers;
 - Additional/extra listings;
 - Text accompanying listings (i.e. special instructions, Internet listings, etc.)

In this Item, “out of book” means those listings added to a particular directory when the terminating location of the number is not within the physical region of the directory’s coverage.
8. The licensee shall comply with all specifications set out in the BLIF Document pertaining to the receiving LEC.
9. The licensee may terminate the BLIF Agreement at any time by giving written notice to ExaTEL at least 90 days in advance of the effective date of any such termination. ExaTEL shall have the right to terminate the BLIF Agreement upon 10 days prior written notice to the licensee, if the licensee has breached any of its material obligations in the BLIF Agreement or this Item, and the licensee has failed to cure such default within 30 days of receipt of written notice sent from ExaTEL describing the nature of the default.
10. In the event of termination, any amounts due to ExaTEL pursuant to the BLIF Agreement and this Item shall immediately become due and payable. In such event, the licensee shall immediately discontinue the use of the listings and comply with all other requirements set out in the BLIF Agreement.

PART B Interconnection with Local Exchange Carriers (LECs)**ITEM 202. Basic Listing Interchange File - continued**

11. The following charges are payable to ExaTEL for BLIF Masters and BLIF Updates as defined in the BLIF Agreement:

Each BLIF Master and/or Update, per listing	
Territory	(\$)

1. Rates applicable in the operating territory of TBayTel operating as the SILEC.
2. Rates applicable in the operating territory of NorthernTel Limited Partnership operating as the SILEC.
3. Rates applicable in the operating territories of Bell Aliant and Bell Canada operating as the ILECs.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 300. General**

This Part governs the provision of interconnection services associated with facilities and services of ExaTEL and those of Telecommunications Providers that are IXSPs. An interexchange carrier (“IXC”) that wishes to interconnect with ExaTEL must also enter into an interconnection agreement with ExaTEL in the form of the CLEC-IXC Agreement.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs**

1. ExaTEL will provide at least one suitably equipped point of interconnection in each exchange in which it operates as a CLEC. An IXC may also enter into a transiting arrangement to interconnect with ExaTEL via the ILEC where suitable ILEC facilities exist.
2. Equal Access
 1. Equal Access is available to IXSPs in ExaTEL's serving areas.
 2. Equal Access is available from any local reseller that is an affiliate of ExaTEL to IXSPs that subscribe to interconnection services from ExaTEL.
3. The provision of interconnection services is further subject to the terms and conditions specified in the CLEC-IXC Agreement, including the Appendices and Schedules, and in the PIC/CARE Access Customer Handbook described in Item 302.4.3. As an exception to Item 102.8, the CLEC-IXC Agreement defines and determines the procedures for handling confidential information provided by the IXSP to ExaTEL and specifies procedures with respect to the receipt and processing of orders from the IXSP, interchange carrier billing, network planning requirements and PIC information processing, all in relation to interconnection services.

Such procedures shall also bind IX resellers and govern the handling of confidential information provided by the IX reseller to ExaTEL. ExaTEL shall provide the IX reseller with a copy of the CLEC-IXC Agreement.

4. ExaTEL does not make any representation that its interconnection services shall at all times be available in the quantities requested and at the locations specified by the IXSP. ExaTEL shall, however, devote its best reasonable effort to make such interconnection services available on request, in accordance with the Network Planning section of the CLEC-IXC Agreement and taking account of ExaTEL's own requirements.
5. When ExaTEL agrees to provide interconnection services under this Part at the IXSP's premises or at its customers' premises, the IXSP will furnish or arrange to furnish to ExaTEL, at no charge, adequate equipment space and electrical power.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs - continued**

6. The IXSP will also furnish or arrange to furnish to ExaTEL, at no charge, any additional facilities or protective apparatus that may be required due to particular hazards at the interconnection locations.
7. Where equipment or facilities are provided by the IXSP, or its customers, including IX resellers, the interface with ExaTEL's equipment or facilities shall comply with industry-accepted guidelines.
8. Prior to receiving interconnection service pursuant to this Part, an IXSP must register with the CRTC and with ExaTEL, except IXSPs that resell ExaTEL's switched local exchange or switched interexchange service only to persons physically located in or on the IXSP's business premises.
9. Together with its registration, an IXC shall file with the CRTC a full description of its interexchange network, including information regarding the extent of owned and leased transmission facilities and shall notify ExaTEL of such filing.
10. Network Changes
 1. ExaTEL makes no representations that its equipment and facilities are adapted or will remain adapted for use in connection with IXSP-provided equipment or facilities.
 2. ExaTEL reserves the right to change in whole or in part, the design, function, operation or layout of its equipment or facilities as it considers necessary. ExaTEL shall not be responsible to an IXSP or its customers for any equipment or facilities which cease to be compatible with ExaTEL's equipment or facilities or become inoperative because of such changes to ExaTEL's equipment or facilities.
 3. ExaTEL will provide the IXSP with advance notice of changes to ExaTEL's equipment or facilities that may affect the IXSP's interconnection with ExaTEL in accordance with applicable CRTC requirements.
 4. The IXSP shall not implement any change to its operations, services or network which would, in the reasonable assessment of ExaTEL, materially affect ExaTEL's operation, interconnection services or network, without the prior consent of ExaTEL, which shall not unreasonably be withheld.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs - continued**

10. Network Changes - continued

5. The IXSP will provide ExaTEL with advance notice of changes to the IXSP's equipment or facilities that may affect ExaTEL's interconnection with the IXSP in accordance with applicable CRTC requirements.

11. Network Outages

1. ExaTEL will provide the IXSP with the earliest possible notice of all network outages affecting the operation of the IXSP's equipment or facilities.
2. ExaTEL does not guarantee uninterrupted working of its interconnection service, and shall not be liable to the IXSP, its customers or to any other person, for any failure or delay in performance of any interconnection service provided pursuant to this Part, to the extent that such failure or delay is attributable to causes or results from events beyond ExaTEL's reasonable control. Nothing in this paragraph shall extend the liability of ExaTEL as specified in the Terms (Item 102) in the event of network outages or service problems.

12. Protection

The characteristics and methods of operation of any circuits, equipment or facilities of the IXSP, when connected to ExaTEL's, shall not:

1. interfere with or impair service over any facilities of ExaTEL's or any Telecommunications Providers with which ExaTEL interchanges traffic;
2. cause damage to ExaTEL's facilities;
3. impair the privacy of any communication carried over ExaTEL's facilities, or
4. create hazards to ExaTEL's employees or to the public.

13. If such characteristics or methods of operation are not in accordance with Item 301.12, ExaTEL will, where practicable, notify the IXSP that temporary discontinuance of the use of any equipment or facilities may be required. When prior notice is not practicable, nothing contained within the Tariff shall be deemed to preclude ExaTEL from temporarily discontinuing forthwith the availability to the IXSP of any equipment or facility if such action is reasonable under the circumstances. In cases of such discontinuance, the IXSP will be promptly notified and afforded the opportunity to correct the condition which caused the temporary discontinuance.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs - continued**

14. During any period of temporary discontinuance of service caused by a trouble or condition arising in the IXSP's operations, equipment or facilities, no refund for interruption of service, as specified in the Terms (Item 102), shall be made.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 302. Trunk-side Access****1. Feature Group D Interconnecting Circuits**

1. Trunk-side access permits the interconnection of facilities to enable the interchange of traffic between ExaTEL and the IXSP, and can be configured for Feature Group D (FGD).
2. FGD interconnection enables the IXSP to offer end-customers access to its services by dialling directly (1+, 0+, 011+, 00- or 01+) or for casual access (10XXX or 10XXXX).
3. Trunk-side access is provided through FGD interconnecting circuits that may, subject to the availability of suitable facilities:
 1. be connected using Access Tandem (AT) Connection or Direct Connection (DC); and
 2. use MF or CCS7 signalling.
4. The facilities used for trunk-side access may be provided by ExaTEL or any Telecommunications Provider.
5. The order processing charges specified below apply for each DS-0 Set used as FGD interconnecting circuits. A “DS-0 Set” means a group of FGD DS-0s within the same DS-1 connected at the same location and ordered at the same time.

Feature Group D Interconnecting Circuits		
Territory	Inward Order	Change Order
	each DS-0 Set (\$)	each DS-0 Set (\$)

1. Rates applicable in the operating territory of TBayTel operating as the SILEC.
2. Rates applicable in the operating territory of NorthernTel Limited Partnership operating as the SILEC.
3. Rates applicable in the operating territories of Bell Aliant and Bell Canada operating as the ILECs.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 302. Trunk-side Access - continued****2. Switching and Aggregation**

1. ExaTEL offers switching and aggregation service to IXSPs comprised of switching, transport and signalling functions at the originating or terminating end of a call, including, subject to availability:
 1. hardware answer supervision;
 2. delivery of calling line identification.
2. When an IXSP requests trunk-side access, a switching and aggregation charge applies to each conversation minute of originating or terminating traffic exchanged. This charge is derived by multiplying the charge based on total elapsed carrier connect time by the connect time to conversation minutes ratio.
3. When an IXSP requests Access Tandem Connection, the switching and aggregation charge is comprised of the combined Direct Connection and Access Tandem Connection charges listed below:
4. Charges:

Switching and Aggregation Charges						
Territory	Rate Based on Connect Time (\$)		Connect Time to Conversation Minutes Ratio		Charge Based on Conversation Minutes (\$)	
	Direct Connection	Access Tandem	Direct Connection	Access Tandem	Direct Connection	Access Tandem

1. Rates applicable in the operating territory of TBayTel operating as the SILEC.
2. Rates applicable in the operating territory of NorthernTel Limited Partnership operating as the SILEC.
3. Rates applicable in the operating territories of Bell Aliant and Bell Canada operating as the ILECs.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 302. Trunk-side Access - continued****3. CCS7 Signalling**

1. CCS7 Signalling service may be provided by ExaTEL to an IXSP for the purpose of call set-up and take-down. The service provides a port connection on ExaTEL's designated gateway Signalling Transfer Points (STPs) for each DS-0 channel linking ExaTEL's STPs to the IXSP's STPs or switch(es). An IXSP may establish either IXSP STP-to-STP connection ("D-link") or IXSP switch-to-STP connection ("A-link"), but not both.
2. The DS-0 channel facility linking ExaTEL's STPs to the IXSP's STPs or switch(es) may be provided by ExaTEL or by any Telecommunications Provider.

Rates

3. The monthly rate for each STP port connection used to establish a DS-0 channel D-link is specified below. IXSPs are required to connect in multiples of 4 DS-0 channels.
4. The monthly rate for each STP port connection used to establish a DS-0 channel A-link is specified below. IXSPs are required to connect in multiples of 2 DS-0 channels per switch.

Service Charges

5. The order processing charges specified below apply for each DS-0 Set of D-links or A-links. A "DS-0 Set" means a group of DS-0s within the same DS-1 connected at the same location and ordered at the same time.
6. When it is necessary for ExaTEL to incur expense in order to meet IXSP requirements for subsequent additions or changes to D-links or A-links, the IXSP shall pay an additional charge based on estimated time and costs incurred to meet the IXSP's request.
7. In addition, the service charge specified below applies for operations and translations associated with the provisioning of STP port connections to establish DS-0 channels for A-links. This charge applies to each IXSP request for work to be completed at the same time and applies only once for all connections ordered at the same time.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 302. Trunk-side Access - continued****Rates - continued**

2. Rates applicable in the operating territory of NorthernTel Limited Partnership operating as the SILEC.
3. Rates applicable in the operating territories of Bell Aliant and Bell Canada operating as the ILECs.

4. Primary Interexchange Carrier (PIC) Processing

1. Trunk-side access with FGD enables the IXSP to offer its end-customers access to its services by direct dialling. Such access is enabled by identifying the IXSP as the end-customer's PIC. PIC selections may be specified in respect of ExaTEL's end-customer network access services ("NAS") that provide direct-dialled voice access to the PSTN. A list of specific eligible services is included in the PIC/CARE Access Customer Handbook (the "Handbook") described in Item 302.4.3. Charges associated with each of the PIC processing activities described below are set out in Item 302.4.8.
2. At least 60 calendar days before an IXSP wishes PIC processing to begin, the IXSP must establish a PIC processing account with ExaTEL.

When establishing the PIC processing account, the IXSP must provide its Customer Account Record Exchange (CARE) Profile. The CARE Profile form is provided in the Handbook and requires the IXSP to identify specified PIC processing parameters and options.

Subsequent changes to the IXSP's parameters and options must be provided to ExaTEL in writing at least 30 calendar days before the requested effective date of the change.

PART C Interconnection with Interexchange Service Providers (IXSPs)

ITEM 302. Trunk-side Access - continued

4. Primary Interexchange Carrier (PIC) Processing - continued

3. ExaTEL will provide each IXSP that establishes a PIC processing account with 2 copies of the Handbook. The Handbook contains standards and procedures for the processing of PIC transactions between ExaTEL and the IXSP.
4. ExaTEL will apply a PIC processing charge to the IXSP selected by an end-customer for establishing or changing a PIC selection in respect of that end-customer's NAS. Changes include adding new or additional NAS, end-customer moves and end-customer initiated telephone number changes.
5. In the case of PIC selection changes that are disputed by the end-customer or an IXSP on behalf of the end-customer, the end-customer's PIC selection will be reinstated to the previous PIC. The IXSP must then provide evidence of end-customer authorization as described in Schedule 4 of the CLEC-IXC Agreement. If such end-customer authorization is not provided within 15 business days from the date of the request from ExaTEL, the IXSP will be deemed to have requested an unauthorized PIC change. In addition to the unauthorized PIC change charge set out below, the PIC processing charge set out below and associated with Item 302.4.4 is assessed to the IXSP that requested an unauthorized PIC change to cover the reinstatement of the unauthorized PIC to the previous PIC selection.
6. To enable the IXSP to validate or place PIC subscription orders at the working telephone number level, the IXSP may request and obtain from ExaTEL a detailed record transaction in CARE format of all working telephone numbers subscribed to a specific billing telephone number ("BTN").
7. To enable the IXSP to perform reconciliation between the IXSP's billing records and ExaTEL's PIC database, the IXSP may request a verification record from ExaTEL.

8. The PIC processing service charges described in Items 302.4.2 and 302.4.3 set out below apply at the rate established for the territory where interconnection first occurs. The remaining PIC processing service charges apply at the rates set out below for each territory where ExaTEL and the IXSP interconnect.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 302. Trunk-side Access - continued****5. Carrier Network Profile Change**

1. ExaTEL will implement the network and translation options selected by the IXSP at the time of the IXSP's initial order for trunk-side access. The IXSP will indicate its selections by completing a carrier profile questionnaire ("CPQ") in respect of each carrier identification code ("CIC") used.
2. The following service charges will apply in respect of changes requested by the IXSP to its CPQ at any time subsequent to the initial programming in ExaTEL's switch. The service charges apply to each switch in which modifications are required due to an IXSP's change request.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 303. Network Announcements for Customers of Disconnected IXSPs with Trunk-side Access**

1. This service provides for a network announcement to be activated when an IXSP with trunk-side access is disconnected from ExaTEL's network or otherwise ceases to provide its end-customers with access to interexchange services. ExaTEL will route all calls destined for the network of the disconnected IXSP to a recorded announcement. The announcement will inform end-customers that the IXSP is no longer in service and direct such end-customers to contact another IXSP to establish service. The announcement will also provide instructions for making interexchange calls using casual calling.
2. The announcement creation fee specified below applies to each IXSP upon the provision of its CARE Profile for the creation of the announcement capability in respect of that IXSP.
3. In addition, each time an IXSP with trunk-side access is disconnected from ExaTEL's network, or otherwise ceases to provide its end-customers with access to interexchange services, the announcement activation charge specified below is assessed to each remaining IXSP having provided to ExaTEL its CARE Profile for that ILEC operating territory, on the date that the announcement is activated.
4. Service Charges:

3. Rates applicable in the operating territories of Bell Aliant and Bell Canada operating as the ILECs.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 304. Bulk Transfer of End-Customer Base Between IXSPs**

1. This service is intended for situations such as acquisitions or mergers in which one IXSP with trunk side access (the “acquiring IXSP”) acquires the equal access end-customer base of another IXSP (the “original IXSP”). The acquiring IXSP can request ExaTEL to convert the end-customers’ PIC selections from the original IXSP to the acquiring IXSP on a bulk transfer basis. Before ExaTEL will process the requested transfer, the acquiring IXSP must provide ExaTEL with documentation of the original IXSP’s agreement to the bulk transfer of its end-customer base.
2. The acquiring IXSP must request a bulk transfer of an original IXSP’s end-customer base from ExaTEL in advance of the proposed transfer date. The advance notice required by ExaTEL and the specific timing of the transfer will vary depending upon the size and nature of the end-customer base to be transferred.
3. Charges for processing a request for a bulk transfer of another IXSP’s end-customer base are assessed to the acquiring IXSP. The charges consist of a basic charge per request and a variable charge per NAS.
4. Charges

Territory	Basic Charge, each request (\$)	Variable Charge, each NAS (\$)

3. Rates applicable in the operating territories of Bell Aliant and Bell Canada operating as the ILECs.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 305. Billing and Collection Service**

1. Subject to the terms and conditions set forth in a Billing and Collection Services Agreement to be entered into between ExaTEL and the IXSP or its agent, ExaTEL will provide or arrange billing and collection service for eligible services provided by the IXSP. Eligible services are defined in the Billing and Collection Services Agreement and include bill to third number, collect, caller pays, directory assistance, casual calling, sent paid, coin telephone, conference call and messaging services.
2. Billing and Collection Service includes:
 1. preparation and rendering of bills for charges purchased by ExaTEL from the IXSP which are associated with eligible services provided by the IXSP to end-customers who also maintain accounts with ExaTEL for local service;
 2. collection of payments for charges associated with eligible calls placed by end-customers who use the IXSP's eligible services. Payments collected include appropriate taxes, which will be remitted by the IXSP to the appropriate governments unless ExaTEL identifies the end-customer as tax-exempt (for either, or both, of GST and PST/HST). If the end-customer is tax-exempt, the appropriate tax, or taxes, will be removed, and remaining taxes will be recalculated by ExaTEL, if necessary, and the revised tax amounts will be billed;
 3. answering of end-customer questions regarding charges billed by ExaTEL for eligible services provided by the IXSP, excluding questions about the details of the IXSP's services, rates, rate structure and similar matters; and
 4. application of credits and adjustments to end-customer accounts, in accordance with billing and collection services procedures which are provided to the IXSP from time to time by ExaTEL.
3. ExaTEL's billing and collection service may be provided to the IXSP either by ExaTEL or by its agent.
4. ExaTEL will require an implementation period to establish billing and collection service with the IXSP. This period will be identified in the Billing and Collection Services Agreement.

PART C Interconnection with Interexchange Service Providers (IXSPs)**ITEM 305. Billing and Collection Service - continued**

5. Rates

Charges for billing and collection service consist of two components: an accounts receivable management discount that applies to each account receivable purchased from the IXSP and billed to the end-customer; and processing charges that apply to each account receivable purchased from the IXSP that is returned prior to billing, billed to a customer, or returned or charged back to the IXSP after billing.

PART D Interconnection with Wireless Service Providers (WSPs)**ITEM 400. General**

This Part governs the provision of interconnection services associated with interconnection of the facilities and services of ExaTEL and those of Telecommunications Providers that are WSPs. A Telecommunications Provider that owns or operates transmission facilities as a WSP and wishes to interconnect with ExaTEL must be authorized by Industry Canada to provide public mobile radio service in those areas where interconnection is requested and must also sign an interconnection agreement with ExaTEL. Where a WSP provides a competitive interexchange service, the terms, conditions, rates and charges specified in Part C of this Tariff shall apply.

PART D Interconnection with Wireless Service Providers (WSPs)**ITEM 401. Terms and Conditions Applicable to Interconnection with WSPs**

1. The ExaTEL will provide at least one suitably equipped point of interconnection in each Exchange in which it operates as a CLEC.
2. The provision of interconnection services in this Part is subject to compliance by the WSP with all applicable authorization and equipment certification requirements and all relevant interconnection interface standards established by Industry Canada.
3. ExaTEL does not make any representation that access interconnection services shall at all times be available in the quantities requested and at the locations specified by the WSP. ExaTEL shall, however, devote its best reasonable efforts to make such interconnection services available on request, in accordance with the provisions of an interconnection agreement between the WSP and ExaTEL and taking account of ExaTEL's own requirements.
4. When ExaTEL agrees to provide interconnection services under this Part at the WSP's premises or at its customers' premises, the WSP will furnish or arrange to furnish to ExaTEL, at no charge, adequate equipment space and electrical power.
5. The WSP will also furnish or arrange to furnish to ExaTEL, at no charge, any additional facilities or protective apparatus that may be required due to particular hazards at the interconnection locations.
6. Where equipment or facilities are provided by the WSP or its customers, the interface with ExaTEL's equipment or facilities shall comply with industry accepted guidelines.
7. Network Changes
 1. ExaTEL makes no representations that its equipment and facilities are adapted or will remain adapted for use in connection with WSP-provided equipment or facilities.
 2. ExaTEL reserves the right to change in whole or in part, the design, function, operation or layout of its equipment or facilities as it considers necessary. ExaTEL shall not be responsible to a WSP or its customers for any equipment or facilities which cease to be compatible with ExaTEL's equipment or facilities or become inoperative because of such changes to ExaTEL's equipment or facilities.

PART D Interconnection with Wireless Service Providers (WSPs)**ITEM 401. Terms and Conditions Applicable to Interconnection with WSPs - continued**

7. Network Changes - continued

3. ExaTEL will provide the WSP with advance notice of changes to ExaTEL's equipment or facilities that may affect the WSP's interconnection with ExaTEL in accordance with applicable CRTC requirements.

8. Network Outages

ExaTEL does not guarantee uninterrupted working of its interconnection services, and shall not be liable to the WSP, its customers or to any other person, for any failure or delay in performance of any interconnection service provided pursuant to this Part, to the extent that such failure or delay is attributable to causes or results from events beyond ExaTEL's reasonable control. Nothing in this paragraph shall extend the liability of ExaTEL as specified in Item 102.10 of the Terms in the event of network outages or service problems.

9. Protection

The characteristics and methods of operation of any circuits, equipment or facilities of the WSP, when connected to ExaTEL's circuits, equipment or facilities, shall not:

1. interfere with or impair service over any facilities of ExaTEL's or any Telecommunications Providers with which ExaTEL interchanges traffic;
2. cause damage to ExaTEL's facilities;
3. impair the privacy of any communication carried over ExaTEL's equipment or facilities; or
4. create hazards to ExaTEL's employees or to the public.

10. If such characteristics or methods of operation are not in accordance with Item 401.9, ExaTEL will, where practicable, notify the WSP that temporary discontinuance of the use of any equipment or facilities may be required. When prior notice is not practicable, nothing contained within the Tariff shall be deemed to preclude ExaTEL from temporarily discontinuing forthwith the availability to the WSP of any equipment or facility if such action is reasonable under the circumstances. In cases of such discontinuance, the WSP will be promptly notified and afforded the opportunity to correct the condition which caused the temporary discontinuance.

PART D Interconnection with Wireless Service Providers (WSPs)**ITEM 401. Terms and Conditions Applicable to Interconnection with WSPs - continued**

11. During any period of temporary discontinuance of service caused by a trouble or condition arising in the WSP's operations, equipment or facilities, no refund for interruption of service, as set forth in ExaTEL's Terms (Item 102), shall be made.
12. The WSP shall be responsible for all charges due in respect of equipment, facilities and interconnection services provided by ExaTEL pursuant to this Part. The WSP shall be the sole point of contact with ExaTEL in respect of the equipment, facilities or services provided, including for the purpose of making trouble reports.

PART D Interconnection with Wireless Service Providers (“WSPs”)**ITEM 402. Trunk-side Access**

1. “Trunk-side access” refers to an arrangement using interconnection facilities to enable the interchange of traffic between ExaTEL and the WSP using CCS7 signalling.
2. Trunk-side access is provided through digital circuits. The facilities used to provide digital circuits may be provided by ExaTEL or a Telecommunications Provider.
3. Service Charges

The order processing service charge specified below applies for each DS-0 Set, where “DS-0 Set” means a group of DS-0s, not limited to the same DS-1, that are connected at the same POI and ordered at the same time. The activation or change service charge specified below applies for each DS-0 activated or changed.

PART D Interconnection with Wireless Service Providers (“WSPs”)**ITEM 402. Trunk-side Access - continued**

4. Access Charge

The trunk-side monthly access charge specified below provides for the common equipment and facilities required to terminate WSP-originated traffic in ExaTEL’s local calling area associated with the POI, including transiting to other LECs and WSPs operating in the local calling area associated with the POI. It also provides for the common equipment and facilities required to route to the WSP’s NXXs associated with the exchange in which the POI is located. The charge applies for each activated DS-0 and varies according to the total number of activated DS-0s between the WSP switch and ExaTEL’s POI.

Trunk-Side Access Monthly Charge (per DS-0) (\$)

PART D Interconnection with Wireless Service Providers (“WSPs”)**ITEM 402. Trunk-side Access – continued**

5. CCS7 Interconnection

1. CCS7 signalling service may be provided by ExaTEL to a WSP for the purpose of call set-up and take-down. The service provides a port connection on ExaTEL’s designated gateway STPs for each DS-0 channel linking ExaTEL’s STPs to the WSP’s STPs.
2. The DS-0 channel facility linking ExaTEL’s STPs to the WSP’s STPs may be provided by ExaTEL or by any Telecommunications Provider.
3. The monthly rate specified below applies for each STP port connection used to establish a DS-0 channel linking a WSP’s STP to ExaTEL’s STP. WSPs are required to connect in multiples of 4 DS-0 channels.

6. Directory Listing

ExaTEL will arrange to have a telephone number assigned to a WSP listed in a LEC’s directory in accordance with Item 202 upon request by a WSP on behalf of its end-customer. Any charges levied on ExaTEL by the LEC providing the directory will be payable by the WSP to ExaTEL.

PART D Interconnection with Wireless Service Providers (“WSPs”)**ITEM 403. Line-side Access**

1. “Line-side access” refers to an interconnection arrangement using facilities over which PSTN dial tone is delivered to enable the interchange of traffic between ExaTEL and the WSP.
2. Line-side access is provided through analogue or derived digital DS-0 circuits. The facilities used to provide line-side circuits may be provided by ExaTEL or a Telecommunications Provider.
3. Service Charge

The service charge specified below applies for each order to activate any quantity of line-side circuits at one POI at the same time.

PART D Interconnection with Wireless Service Providers (“WSPs”)

ITEM 403. Line-side Access – continued

5. Telephone Numbers

1. The charges specified below apply if a WSP requests telephone number ranges in connection with line-side access. ExaTEL provides 7-digit telephone numbers with outpulsing either as a dedicated group of 10,000 consecutive numbers (an entire NXX) or individually from

a non-dedicated NXX. Numbers may be activated immediately or reserved for activation at a later date. An entire NXX may be reserved where forecasts warrant. Telephone numbers will be reserved for a minimum of one month, and remain reserved until placed in service or released at the request of the WSP.

2. The WSP is responsible for all charges levied in respect of all calls associated with any telephone number assigned and activated on behalf of that WSP.
3. ExaTEL does not provide a directory listing in respect of telephone numbers reserved or activated on behalf of a WSP. ExaTEL will arrange to have a telephone number assigned to a WSP listed in a LEC's directory in accordance with Item 202 upon request by a WSP on behalf of its end-customer. Any charges levied on ExaTEL by the LEC providing the directory will be payable by the WSP to ExaTEL.

PART D Interconnection with Wireless Service Providers (“WSPs”)**ITEM 403. Line-side Access - continued****6. Charges for Activated Telephone Numbers**

PART D Interconnection with Wireless Service Providers (“WSPs”)**ITEM 403. Line-side Access - continued**

8. 100 and 1000 Block Routing

“Block routing” refers to an arrangement whereby ExaTEL will verify that an incoming call is destined to a telephone number activated on behalf of a WSP, then route the call to the WSP’s switch on a trunk-side basis, enabling the exchange of CCS7 signalling information. The WSP may request block routing on the basis of blocks of 100 or 1000 numbers. In each territory where interconnection occur, the service charge per block, the monthly charge per block, and/or a monthly charge per number will apply as set out below.

PART E Other Interconnection Services

ITEM 500. General

This Part governs the provision of services other than those described elsewhere in this Tariff that are associated with the interconnection of ExaTEL's facilities with those of Telecommunications Providers.

PART E Other Interconnection Services**ITEM 501. 9-1-1 Emergency Response Service (ERS)****1. Definitions**

For the purposes of the Tariff, capitalized terms have the meanings defined below:

“ALI”: Automatic Local Identification

A database feature that displays to PSAP's and ERA's address/location data with respect to a telephone line from which the 9-1-1 call originates.

“ANI”: Automatic Number Identification

A database feature that displays the telephone number of the CLEC exchange service that originates the 9-1-1 call.

“Call Answer”:

The act of answering 9-1-1 calls, determining the type of ERA required and directing the 9-1-1 call to that ERA.

“Public Safety Answering Point (PSAP)”:

A communications facility open 24 hours a day, 365 days a year, and responsible for answering, redirecting or transferring emergency calls to ERA's. The Public Safety Answering Point is the first point of reception for all 9-1-1 calls in its serving area.

“Call Control”:

A feature that allows the 9-1-1 call taker to maintain control of the 9-1-1 call, regardless of the calling-party action.

“Commission”:

The Canadian Radio-television and Telecommunications Commission (CRTC), and its successors.

“ERA”: Emergency Response Agency

A communication centre open 24 hours a day, 365 days a year to which emergency calls are transferred from the Public Safety Answering Point and which is the agency responsible for dispatching emergency personnel (emergency medical, fire or law enforcement).

PART E Other Interconnection Services**ITEM 501. 9-1-1 Emergency Response Service (ERS)****1. Definitions - Continued**

“ESZ”: Emergency Service Zone

A defined area consisting of a specific combination of Municipality, law enforcement, fire, emergency medical and Public Safety Answering Point coverage areas.

“Exchange Services”:

Any local telecommunications service offered by a CLEC to its end user subscribers, either directly or indirectly through a CLEC authorized reseller, under the terms of a tariff and/or Agreement.

“Local Subscriber”:

A CLEC end user subscriber located within the Municipal boundaries, who subscribes to any of the CLEC’s Exchange Services.

“9-1-1 Database”:

The database operated by the 9-1-1 Service Provider that contains street names, addresses, routing codes and other data required for the management of Selective Routing and Transfer, ALI and ANI.

“9-1-1 Service Provider”:

The Incumbent Local Exchange Carrier (ILEC) that provides an 9-1-1 service to the Municipality, pursuant to a tariff and/or agreement through which access to 9-1-1 emergency calling is made available to the ILEC’s and CLEC’s end user subscribers located within the 9-1-1 Service Area.

“SAG”: Street Address Guide: 9-1-1 Street Address Database

The databases that contain street names, address ranges, routing codes and other data required for the management of ALI and ANI.

PART E Other Interconnection Services**ITEM 501. 9-1-1 Emergency Response Service (ERS)****1. Definitions - Continued**

“Serving Area”:

The area within the Municipality’s boundaries, as determined by the Municipality, from which 9-1-1 calls will be directed to a particular Public Safety Answering Point.

"9-1-1 Calling Service"

The ILEC/CLEC service that provides the local subscriber with the universally recognized 9-1-1 three-digit dial access to ERA's serving their communities.

2. Service Description

- (a) 9-1-1 Emergency Response Service is provided under the terms of this Tariff to ExaTEL’s end user subscribers connected to ExaTEL’s network by any of ExaTEL’s Exchange Services. The service is available to municipalities, subject to the availability of suitable facilities. The service provides for the transport of 9-1-1 dialed calls to PSAP and other ERAs.
- (b) The service provides ExaTEL’s end user subscribers with 9-1-1 three-digit dial access to ERAs serving their communities. ExaTEL provides its end user subscribers with access to the 9-1-1 code from each of its central offices to provide service coverage specified by the Municipality. Answering of the call and the emergency response is the responsibility of the Municipality and is not provided by ExaTEL as part of 9-1-1 ERS.
- (c) The 9-1-1 call is delivered to a PSAP operated by the Municipality. The attendant at the PSAP determines the nature of the emergency and forwards the call to the appropriate fire, police or ambulance dispatch centre. The answering attendants at the ERAs are supported by the following special features provided by the 9-1-1- Service Provider in accordance with its tariffs and agreements.

PART E Other Interconnection Services**ITEM 501. 9-1-1 Emergency Response Service (ERS)****2. Service Description – Continued****a. Selective Routing and Transfer**

The 9-1-1 Service Provider maintains a central database in its network that will automatically route the 9-1-1 call to a pre-assigned PSAP based upon the ANI/ALI of the telephone line from which the 9-1-1 call originates.

b. Automatic Line Identification (ALI)

The 9-1-1 Service Provider maintains the ALI database.

c. Integrity Check

This allows the ERA to verify that the 9-1-1 access lines to its bureau are in working order.

The operation of the Selective Routing and Transfer and ALI features is dependent upon the accuracy of ExaTEL's records and information received from the Municipality and others, such as new street information and boundary changes.

3. Object

In accordance with the terms and conditions of ExaTEL's General Tariff, the Municipality and ExaTEL shall fulfill their respective obligations under this Tariff in order to make available a 9-1-1 emergency calling service to ExaTEL's end user subscribers, and shall be bound by the provisions of the Tariff, except to the extent that a written agreement executed by ExaTEL and the Municipality and approved by the CRTC explicitly modifies or supercedes the provisions of the Tariff in relation to that Municipality.

4. Conditions of Service

4.1 As conditions of providing ExaTEL 9-1-1 ERS, ExaTEL shall:

1. Make ExaTEL 9-1-1 ERS accessible to all of ExaTEL's end user subscribers in the 9-1-1 Serving Area.
2. Provide 9-1-1 ERS through the network of the 9-1-1 Service Provider to the PSAP.

PART E Other Interconnection Services**ITEM 501. 9-1-1 Emergency Response Service (ERS)****4. Conditions of Service – Continued**

3. Provide ANI and ALI data to the 9-1-1 Service Provider which in turn, shall provide such data to the PSAP and ERA as deemed appropriate by the Municipality and the 9-1-1 Service Provider.
 4. Maintain and update the SAG subject to receipt of the information required to be provided by the Municipality pursuant to paragraph 4.2 (c)(iii).
- 4.2 As conditions of accepting 9-1-1 calls from ExaTEL's end user subscribers, the Municipality shall:
4. Provide and operate a PSAP for the 9-1-1 Serving Area on a 24-hour, 365 days per year basis. The Municipality may contract with a third party for the management and operation of the PSAP but the Municipality shall remain responsible for all aspects of the operation of the PSAP and shall not be relieved of its obligations under this Tariff.
 5. Provide, operate and manage the personnel and the equipment, including terminal equipment, required to receive and process all emergency calls directed to the PSAP.
 6. Co-ordinate participation of all ERAs in the 9-1-1 Serving Area with respect to ExaTEL 9-1-1 ERS. This shall include:
 - i) ensuring the involvement of the ERAs;
 - ii) determining the 9-1-1 Serving Areas and ESZ's served by the PSAP and ERAs; and
 - iii) providing and validating, as required by ExaTEL, all geographical data, including street names, addresses, and borders of the 9-1-1 Serving Areas and ESZs.

PART E Other Interconnection Services**ITEM 501. 9-1-1 Emergency Response Service (ERS)****5. Characteristics of Service - Continued**

ExaTEL's 9-1-1 ERS permits the utilization of ANI, ALI, Selective Routing and Transfer and Call Control features. The availability and reliability of these features depends on the following:

- (a) The terminal systems and the operating mode selected for the PSAP and ERAs;
- (b) The type of Exchange Service and the equipment and/or telephone systems from which 9-1-1 calls originate;
- (c) The accuracy of the data, which itself is dependent upon the information provided by various sources (for example, ExaTEL, ExaTEL's end user subscribers, the Municipality, the 9-1-1 Service Provider...).
- (d) The characteristics and reliability of the 9-1-1 service provided by the 9-1-1 Service Provider to the extent that ExaTEL's participation in the provision of ExaTEL's 9-1-1 ERS is dependent on the 9-1-1 service provided by the 9-1-1 Service Provider.

6. Confidentiality

- (a) Any information provided by ExaTEL to the Municipality, its employees, servants, agents and/or co-contractors pertaining to the design, the development, the implementation, the operation and the maintenance of ExaTEL 9-1-1 ERS is confidential, and shall be provided only to such persons who have a need to know for the purposes of providing a 9-1-1 emergency calling service.
- (b) ExaTEL provides to the 9-1-1 Service Provider, which in turn provides to the Municipality, on a call-by-call basis for the operation of ExaTEL's 9-1-1 ERS, the name, telephone number and service location shown on ExaTEL's ANI and ALI records as the address for the ExaTEL Exchange Services from which the 9-1-1 call is placed.
- (c) The information consisting of names, addresses and telephone numbers of ExaTEL's end user subscribers whose listings are not published in directories or listed in Directory Assistance records is confidential. Information is provided on a call-by-call basis for the sole purpose of responding to 9-1-1 emergency calls. The party calling 9-1-1 waives any right to privacy afforded under any of ExaTEL's tariffs or agreements to the extent that the name, location and telephone number associated with

PART E Other Interconnection Services

ITEM 501. 9-1-1 Emergency Response Service (ERS)**6. Confidentiality - Continued**

the originating telephone are furnished to the Municipality operating a PSAP.

- (d) Furthermore, ExaTEL and the Municipality shall abide by all applicable legislation with respect to the protection of privacy in effect from time to time.

7. Quality of ExaTEL 911 ERS

- (a) ExaTEL shall install and operate ExaTEL's 9-1-1 ERS in a manner that meets quality standards generally accepted in North America for such services. The following are examples of the content of quality standards generally accepted in North America:
 - i) average of 0.1% blocking within the network;
 - ii) diverse telephone networking capabilities;
 - iii) updated ANI/ALI records to the 9-1-1 Service Provider's database; and
 - iv) special call control features such as bureau hold, emergency ringback, calling party disconnect signal, and forced disconnect.
- (b) ExaTEL shall restore service as quickly as possible and on a priority basis should there be any interruption, delay, mistake or defect in transmission, or in its network facilities.

8. Quality of the Municipality's Service

- (a) The Municipality shall implement and ensure the operation of its PSAP in a manner that meets quality standards generally accepted in North America for such services. The following are examples of the content of quality standards generally accepted in North America:
 - i) providing 24 hour service;
 - ii) answering the 9-1-1 call within two rings;
 - iii) providing effective response including transfer/conference of calls to the appropriate PSAP and ERAs; and
 - iv) recording and logging all calls.

PART E Other Interconnection Services**ITEM 501. 9-1-1 Emergency Response Service (ERS)****9. Implementation**

The implementation of ExaTEL 9-1-1 ERS within the 9-1-1 Serving Area shall be carried out pursuant to an implementation schedule to be mutually agreed to by ExaTEL, the Municipality and the 9-1-1 Service Provider (the “Parties”) and which may be changed from time to time.

10. Limitation of Liability

- (a) ExaTEL’s liability for the performance of its obligations pursuant to this Tariff shall be subject to and governed by ExaTEL’s General Tariff **Item 102** – General Rights and Obligations.
- (b) Except with regard to physical injuries, death or damage to property occasioned by its negligence, the Municipality’s liability for negligence is limited to \$20.
- (c) The Municipality and ExaTEL shall, during the term of this Tariff, maintain sufficient insurance to cover their respective obligations under this Tariff and shall provide evidence of same to ExaTEL or the Municipality.

11. Force Majeure

- (a) Neither ExaTEL nor the Municipality shall be held responsible for any damages or delays as a result of war, invasion, insurrection, demonstrations, or as a result of decisions by civilian or military authorities, fire, floods, strikes and, generally as a result of any event that is beyond the Municipality’s or ExaTEL’s reasonable control.
- (b) The Municipality may designate a back-up PSAP to which 9-1-1 calls will be directed in the event the primary PSAP is unable to accept the calls for any reason.
- (c) ExaTEL and the Municipality shall, in the event of a disaster or force majeure, co-operate and make all reasonable efforts to provide temporary replacement service until permanent service is completely restored.
- (d) The costs required to provide temporary replacement service shall be borne according to the sharing of obligations between ExaTEL and the Municipality, as indicated in article 4 of this Tariff.
